

Daylyte

LIGHTING PRODUCTS

12v, 7 watts

Requires compatible transformer

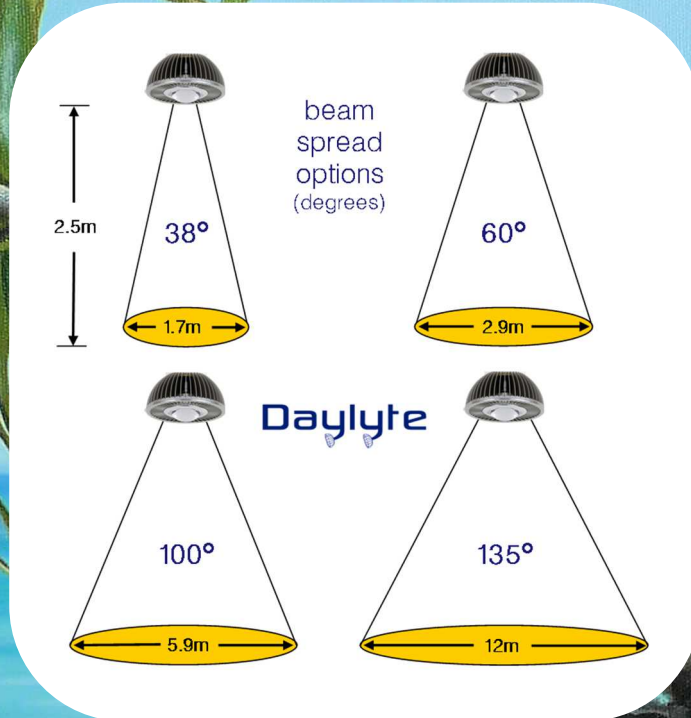

240v GU10, 7 watts

Straight swap over

Choose a beam spread
(the angle of light emitted from the globe)

Choose a colour

DAYLYTE NATURAL

7 watts, 470 lumens, 6000k

DAYLYTE SUNSET

7 watts, 650 lumens, 4100k

DAYLYTE WARM

7 watts, 550 lumens, 3000k

The sharper the spread of light the brighter the target will look. For open rooms 135 degree spread is best. For kitchen benchtops or workplace desks use 100°.

The globe colour is a choice based on personal preference. Here is a simple guide:

DAYLYTE NATURAL: Crisper, cleaner colour used in workplaces, home offices and kitchens.

DAYLYTE SUNSET: More subtle with a touch of Warm - our biggest selling globe in homes. Bedrooms, lounge areas, kitchens, living areas.

DAYLYTE WARM: Warm colour tones just like a halogen globe. Bedrooms, lounge areas, restaurants, cafes, beauty salons.
